Multiple Pathogen Targets

Requires minimal benchtop space

With a footprint slightly larger than a sheet of paper, the SPOTFIRE System easily fits on most lab benches.

Scalable throughput

The system can be vertically scaled up to 4 modules, enabling labs to meet their unique testing needs.

Easy-to-use

The streamlined workflow and intuitive system interface have been designed to be used by any operator, in any setting.

Seamless connectivity

The system interfaces with data management systems enabling automatic data transfer to ensure data quality and enable workflow flexibility.

Optimize Operations

Simplified workflow and quick turnaround time enables rapid and accurate answers, while reducing the need for callbacks or expensive and slow send-out testing.

Easy-to-use solution enables users of all skill levels to prepare and run samples.

SPOTFIRE System Impact

Rapid Answers

Receive fast answers in about 15 minutes to 1 hour, depending on test.

Small Footprint

Requires minimal benchtop space with a footprint just slightly larger than a sheet of paper with ability to scale vertically.

State-of-the-Art Cybersecurity

Supports confidentiality, integrity, and availability of data.

Intuitive System Interface

Designed to be easy-to-use with minimal training.

No General Maintenance

No general maintenance is needed other than periodic cleaning.

Seamless Connectivity

The system can easily interface with testing middleware and data management systems.

SPOTFIRE Technical Specifications

Specification	Description												
Operating Specifications	<ul style="list-style-type: none">15°C - 30°C @ 15 - 80% relative humidity (non-condensing)-50 ft (-15 m) to 10,000 ft (3,048 m) operating altitudeIndoor, stationary use only												
Shipping/Storage Specifications	-8°C - 38°C @ 5 - 85% relative humidity (non-condensing)

Maximum Noise Level	< 85 dB at 3.3 ft (1 m) from SPOTFIRE System												

See the appropriate *BIOFIRE SPOTFIRE System Operators Manual* for additional specifications.

1. Calculation based on running the BIOFIRE SPOTFIRE Respiratory Panels (~ 15 minutes) in an 8-hour shift.

System Information

Contact BioFire Defense for guidance on which system will work best for your team.

Product Name	Part No.
BIOFIRE SPOTFIRE Instrument Control Station - Non-IVD Includes: Instrument Control Station, Pouch Loading Station (2), Ethernet Cable, and Power Cord	425024
BIOFIRE SPOTFIRE Instrument Module - Non-IVD Includes: Module and Module Connection Cable	425025
BIOFIRE SPOTFIRE Instrument Control Station - IVD Includes: Instrument Control Station, Antennas (2), Pouch Loading Station (2), Ethernet Cable, and Power Cord	FAST-ASY-0001
BIOFIRE SPOTFIRE Instrument Module - IVD Includes: Module and Module Connection Cable	FAST-ASY-0002

BioFire Defense is authorized to sell the BIOFIRE® SPOTFIRE® Systems and Panels manufactured by its affiliate company bioMérieux.
